## MILK SPILLED IN PRICE WAR; ROADS BLOCKED

Antioch, Lake Villa, Among  
Closed Depots; Chicago  
Fears Shortage

The milk war is on again! Shooting-picketing—milk dumping—assaults—and all the unusual sound effects that accompany milk strikes mark the first three days of the producers' fight in northern Illinois and southern Wisconsin against the recent reduction in price paid these producers. Nearly 70 per cent of the Chicago supply has been cut off.

Antioch, Lake Villa and Lake Zurich milk depots are closed in Lake county, while pickets succeeded either in closing milk plants or stopping most of the bulk deliveries in Harvard, Hebron, Ringwood, Fox River Grove, Crystal Lake and Woodstock in McHenry county, and Lyons and Genoa City in Walworth county, Wis.

Violence Near Kenosha.  
Yesterday's strike violence broke out in Kenosha county, Wis., and McHenry county. Near Kenosha pickets dumped 3,000 gallons of milk from a Bowman Dairy company truck and trailer and a few minutes later an unidentified driver of a second truck blasted his way through two pickets by firing five shots. This occurred on highway 50, west of Kenosha.

Pickets massed at the state line last night stopping the last flow of Wisconsin milk by truck into Chicago's milk shed shutting off more than one-fourth of the city's supply.

With farmer-pickets storming the Genoa City railroad depot Tuesday night and emptying five railroad tank cars of 27,500 gallons of milk consigned to Chicago dealers, stoppage of shipments by rail, the source of 80 percent of the city's milk supply, was deemed possible.

Farmers' Numbers Grow.  
More and more farmers have joined the picketers or are at least withholding their milk from dairy plants to avoid clashes with the striking pickets. The Antioch Dairy company plant officials have refused to accept milk from the producers until the milk war is settled.

Dissension was reported brewing among members of the Pure Milk association, the bargaining agent for 18,000 farmers, which hitherto has opposed the strike. Directors of the Pure Milk group are divided on whether to continue opposition or to join the strike.

It is recalled that the last general milk strike, which was ordered by the Pure Milk group on January 5, 1934, followed the reduction of 70 cents per hundred pounds of milk when the dealers cut the producers' price to \$1.40.

Started in Kane County.  
The current milk war was launched by the United Farmers of Illinois bargaining agency, originating with Kane county farmers as a protest against the recent action of the PMA in signing an agreement with dealers which fixed a top price of \$1.75 per 100 pounds, or 3.75 cents a quart, for milk sold by the farmer member.

The previous price was \$2.20, or 4.75 cents a quart.

The United Farmers are demanding a flat price of \$2.50 per 100 pounds, or 5.37 cents a quart for their milk. This was the price which brought on the big strike on January 22, 1929, when the farmers refused to deliver their milk for less than \$2.35. There are 48½ quarts in 100 pounds of milk.

Thousands of Dollars Lost.  
Milk-war history reveals that such strikes rarely last more than five days because, in addition to stopping the huge milk flow into the Chicago market of some 425,000 gallons of milk daily, an aggregate of hundreds of thousands of dollars is lost by both the farmer-producers and milk plants furnishing the supply.

Little actual damage in the current strike is being reported in Lake county; but trouble is feared at Harvard, one of the "hot spots" of the 1934 milk war, and at Ringwood where 70 cans of milk was dumped from a truck driven by Deputy Sheriff Milton Stecker. The truck was wrecked and picketers have been gathering in larger numbers outside the Bowman Milk depot there.

Want PMA to Join.  
However, dissatisfied members of the PMA in Lake county are demanding that the organization officially join forces with the strikers, while 150 farmers of the Lake Zurich local have already voted to abandon the association's stand and join the strikers.

Reports from all over the area indicate that once farmers are told of the effort to get a higher price they willingly vote to keep their milk off the

## State Completes Concrete Pouring on Grand Avenue

State engineers Saturday completed the pouring of concrete on the Grand avenue gap between Lake Villa and the intersection at Rt. 45 (Wednes Corner) and expect to have it open to traffic on or about October 20.

The repaired gap, which is about 3½ miles, eliminates the former narrow slab and dangerous curves on the route. Work on the shoulders and other improvements is progressing rapidly. The actual paving was completed in less than a month, the engineer's records show.

Route 173 is already open and completely paved between Antioch and Zion.

## Mrs. Wolff, Channel Lake Pioneer, Dead

Mrs. Hedwig Rosow Wolff, of Chicago, who bought property with her husband at Channel Lake 12 years ago and has lived there every summer, died Friday in the Ravenswood hospital in Chicago. Funeral services were conducted Saturday afternoon at the Rosehill Mausoleum chapel. Mrs. Wolff, who was the wife of Christian J. Wolff, son of L. Wolff of the L. Wolff Manufacturing company, Chicago, celebrated her golden wedding anniversary on April 15, 1934. Besides her husband, she is survived by two sons, Carl J. and George F.; two daughters, Mrs. Walter Grady of Lake Forest and Mrs. Frederick Hoelscher of Santa Barbara, Calif.; six grandchildren and one great-grandchild.

## NEW LAWS ELIMINATE DRIVING HAZARDS

Compulsory Brake Test in  
Force; Motorists Must  
Signal

New laws recently passed in the state assembly at Springfield will do much toward eliminating the cause of many automobile accidents, says C. M. Seagraves, head of the department of Safety of the Illinois Agricultural Association.

A new law has been placed on the statute books after considerable study by traffic experts. Substantially it is as follows: there is now a uniform arm signal to be made by the auto driver or truck operator before stopping or turning. To turn left the arm should be extended straight out from the car. To turn right the arm should be crooked at the elbow with the arm pointing up. To stop the arm should be bent at the elbow, the hand pointing down.

Trucks will be required to be equipped with mechanical signaling devices which will indicate to vehicles following them whether or not they anticipate a stop or a turn, and the direction of the turn.

A law requiring compulsory brake tests has also been enacted. It requires every car on the highway to have sufficient brakes to bring it to a halt in 30 feet at a speed of 20 miles per hour.

The state highway police have set up their brake lanes in several of the state routes. Farm Bureau members, warns the Association, are advised to be prepared to take the test at an early date. It is stated that if these brake lane tests show your car is unable to stop in the required distance you are given a ticket by the highway police.

Soldits Powders.  
Seldits powders are composed of 120 grains of tartrate of soda and potassium and 40 grains of bicarbonate of soda reduced to powder, mixed and inclosed in a blue paper, and 38 grains of powdered tartaric acid in a white paper.

market until the price is paid by the dealers.

Offers Assistance.  
Dr. Herman Bundeson, president of the Chicago board of health, realizing the seriousness of the situation, said that he has offered to meet with representatives of the dealers and the strikers this morning if they wished to discuss the situation.

Fred Wolff, president of the United Farmers group that started the strike, explained that he and other members of the committee are satisfied with the manner in which the strike was started. He points out that the marketing plan does not include violence and that it is the hope of the committee that a peaceful settlement of the farmers' difficulties can be made.

Don N. Geyer, manager of the Pure Milk association and "spark-plug" behind the 1934 strike, made no comment on the immediate plans of his organization.

## HEALTH PROGRAM GROWS IN LAKE COUNTY SCHOOLS

Enlarge Work to Establish  
"Health Consciousness"  
in Pupils

One of the interesting developments of the tuberculosis work in Lake County is the Health Education program, which is offered to all elementary schools.

In 1932 this work began as an experimental study under the direction of Miss Theda Waterman with six representative schools selected on the basis of distribution, equipment and school finances. The course of study followed the outline of Dr. C. E. Turner, head of the department of Health Education at Massachusetts Institute of Technology.

The work was enlarged under the direction of Miss Mary Kendall, present Executive Secretary, to include thirteen schools. A course of study on a selected health subject, with additional reading references, playlets, songs, suggestions for posters, booklets, etc., is sent to the teachers the first of each month. Movies and talks on health subjects are presented at Parent-Teacher meetings.

The children are weighed every month and a school record is kept so gains can be noted. Measurements are taken twice a year. There is a short daily health inspection of nails, teeth, hair and clothing. Much stress is laid on having a neat appearance. It is urged that every school serve a hot lunch during the winter months.

Through the courtesy of the Lake County Dental Association examinations were given to 516 children last year. Slips recommending dental care were sent home to the parents.

The purpose of the course as outlined in the first monthly assignment is to establish "health consciousness" in the children, to help them become healthier, happier citizens, to establish health rules so firmly that they will be carried out unconsciously to each rule of good citizenship, to aid in the prevention of disease, to make every effort possible to secure correction of defects and to prevent new defects from occurring as far as possible.

This course of study is available to any elementary school in Lake County for the asking. Teachers desiring such a service should get in touch with the Tuberculosis Association. This program and other phases of the tuberculosis work are made possible by the sale of Christmas Seals at Thanksgiving time.

## ELDORA HORTON, 71, DEAD IN GARY, IND.

Eldora Horton, 71, who spent many years of her life in Antioch, died suddenly last night at Gary, Indiana. It is reported to the Antioch News just at press time. Details of the funeral which will be held either at her former home or a local chapel with interment in Hillside cemetery were not definitely known. Mr. Horton was born at Grayslake, is believed by old-timers of the community who were familiar with his boyhood days here.

## CHURCH TO SPEAK AT G. O. P. LUNCHEON

Next Wednesday, October 9th, the principal speaker at the Republican noon luncheon meeting at Henric's Restaurant will be the Hon. Ralph E. Church, the only Republican Cook County Congressman. This is one of a series of Republican luncheon meetings, to which the public is invited. The last meeting, Monday, September 30th, was addressed by Col. Robert R. McCormick, who was introduced by Col. Frank Knox.

## Rabbit Disease Is Prevalent This Year

With the coming of the hunting season, it is well to remember the warning given by Dr. Frank J. Jirka, of the Department of Health, who delivered an address this week before the Mississippi Valley Medical Society at Quincy.

Dr. Jirka stressed the importance of careful handling of rabbits, squirrels, opossums and quails. The doctor stated that Yersinia is very prevalent again. The disease is acquired by the hands coming in contact with the raw flesh of animals and fowls. This disease produces in humans an illness with a long duration period. A little care in the handling of rabbits and other animals may save you a long spell of sickness or a dangerous nature.

## Golden Wedding Bells Ring

Mr. and Mrs. K. E. Jyrch of Petite Lake celebrated the fiftieth anniversary of their marriage in Berlin in 1885 Saturday. The following year they came to the United States making their home in Chicago until 1918 when they moved to Petite Lake where they have lived since. Mr. Jyrch is 73 years old and Mrs. Jyrch is 70.

## AMELIA EARHART TO GIVE LECTURE IN LAKE COUNTY

Famous Aviatix to Tell Experiences in Waukegan  
October 14

Amelia Earhart, the internationally famous aviatix, who is the only woman to have flown the Atlantic solo, will speak to Lake county residents a week from Monday, October 14. It is announced by Mrs. Edmund F. Vos of Antioch, who is assisting the Waukegan Young Woman's Christian association in making the flyer's appearance possible.

Miss Earhart, who will speak on "Aviation Adventures," will give the talk in the spacious auditorium of the Waukegan Township high school which has a seating capacity of 3,000.

A brief review of her well-publicized career finds that this slim, tousle-headed blonde flyer just a few months ago soloed her way in a flight from Honolulu to Oakland, Cal., over the Pacific ocean. Shortly after her solo non-stop flight from Mexico City to Newark, N. J., put another record in the books. Among the many other records after Miss Earhart's name are: first woman to fly the Atlantic twice; first person to cross the United States in an autogyro; first woman to receive the distinguished Flying cross; first woman licensed in the United States to carry passengers for hire in cabin planes; holder of the woman's transcontinental speed record; etc.

Previous to her 1928 flight as the first woman to fly the Atlantic, Miss Earhart was engaged in settlement work, although she has been a flier since 1920. She pawned jewelry and her fur coat to get money for a plane and worked as mail and file clerk to enable her to keep up her flying lessons.

Tickets may be secured for admission to Miss Earhart's lecture from Mrs. Edmund Vos.

## State Buys Herd of Jersey Cows

The Welfare Department through W. S. O'Hair, Superintendent of the Dairy Division of the Department of Agriculture, and George Ray, Superintendent of the Vandalla State Farm, purchased last week a fine herd of Jersey milk cows to be used at the State Farm. The herd was purchased in Kentucky and are very fine cattle.

Bullfrog Slow Grower.  
A bullfrog tadpole does not mature for at least two years.

## ANTIOCH FAIR DRAWS CROWD AS DOORS OPEN

12th Annual Exhibition Attracts Competition from  
Downtown

The twelfth annual Antioch County Fair swung wide its doors today at the Antioch Township high school buildings and grounds for the three-day exhibition that promises to outstrip the previous eleven exhibits.

Public interest, quality and number of exhibits, and the entertainment features are greater than in any previous time with competitors entered for the \$2,000 in premiums from many downtown and Wisconsin communities.

Headliners to Entertain.

Among the headliners of the free entertainment program will be Frank's Trained animal circus with pigs, ponies, goats and dogs in the leading roles both in afternoon and evening performances; band concerts by the Antioch Township high school band under the direction of Hans von Holwede; the Skokie Valley boys of WLS in special musical features; and tomorrow evening (Friday) a huge style show for men and women.

The style shows are being presented by Marlanna's of Antioch for the misses and ladies, and by Otto S. Klass men's store, for the boys and men.

Schools Have Exhibits.  
Schools of the community have special interesting educational exhibits which are a center of great attraction to fair visitors.

Local firms having exhibits include: Antioch Lumber & Coal company; Nelson Penetrant; Antioch Milling company; Lake County Farm Supply company.

Exhibits were being arranged most of the day by the superintendents of the various classes, while President D. H. Minto of Antioch and Secretary Ernest King of Wadsworth were being kept on the jump from one department to another as the array of exhibits was being placed. The department heads are: poultry and pigeons, Bert Edwards of Antioch; dairy cattle, Kenneth Denman of Lake Villa; rabbits and fur-bearing animals, Lloyd Atwell of Lake Villa; agricultural products, Charles Padock of Antioch; horticulture, Kenneth Hills of Antioch; fine arts, Lottie Jones of Antioch; domestic arts, Mrs. Clarence Crowley of Antioch; pantry stores, Mrs. Frieda Wertz of Antioch; education, W. C. Petty of Antioch, county superintendent of schools.

Admission to the Fair is 25 cents for adults with children under 12 admitted free.

## Antioch Legion Opens Campaign For Membership

Antioch Legion tonight holds its first meeting under Commander Frank T. Hattrem, who will announce his various appointments and begin a membership drive to have 100 paid-up members by Christmas.

A survey of the community discloses more than 112 ex-service men who are eligible for membership in the Antioch post, according to records compiled by John L. Horan, post adjutant.

The other officers for the 1935-36 term are: senior vice-commander, James Waters; junior vice-commander, Harry Messager; finance officer, George Garland; chaplain, Ernest Glens; sergeant-at-arms, Warren Edwards.

## Lake Marie Cottage Destroyed by Blaze

Although the members of Antioch Fire department prevented flames from consuming nearby cottages Monday evening, the summer residence of Mrs. Freda Kopley, 1132 Noyes st., Evanston, burned to the ground, causing a loss of about \$1,500. The Kopley place was located on Marywood Point, on the east shore of Lake Marie, three miles south of Antioch and has been vacant since the close of the summer vacation season.

## No Grade School Friday Afternoon

Classes at the Antioch Grade school will be dismissed Friday afternoon in order that the pupils will be able to attend the afternoon session of the Antioch County Fair. It is announced by Ralph E. Clabaugh, grade school principal.

## REAL STATESMANSHIP NEEDED

The vast governmental spending of the last few years was started in the belief that industry would be stimulated, purchasing power would be increased, and unemployment reduced within a relatively short time. Then government was to step back into the job of governing, leaving industry to carry the load as usual.

Granting that the theory was honestly believed in by those who adopted it, they cannot be blamed for trying what they thought right and proper. But, as time goes on, it becomes increasingly obvious that the idea of "spending" our way to prosperity has been a failure. Untold billions have been spent. The federal debt, to say nothing of state and local debts, has reached the highest point in history. Public payrolls have likewise reached a record high. Yet published unemployment figures remain as high as at any time in the past.

It would be bad enough if the spending policy had failed only in its main objective—the solving of the unemployment problem. But, in addition, it is making it increasingly difficult to ever bring back normal employment—because of the influence of a staggering debt and vastly increased taxes on the only source from which normal employment can come, industry. Many business enterprises are today doing more business than at any time since 1929—yet are earning no additional profits, because of the tax bills they must meet. The inevitable result is to frighten investors, divert money from productive to non-productive channels, such as tax-free government bonds—and keep unemployment at peak figures.

To remedy this situation governmental costs must be cut to the bone, and an aggressive budget-balancing program adopted. That is the course of real statesmanship—and it is the only course that can save America from eventual financial ruin.

## TEACHING FARM CO-OPERATION

According to a law passed by the Wisconsin legislature, cooperative marketing must now be taught in all Wisconsin state schools. Wisconsin is the first state to take such a step. The superintendent of public instruction and the dean of the college of agriculture are to prepare outlines and other text materials for guidance of teachers of cooperative marketing courses.

This action, by one of our foremost agricultural states, well illustrates the importance of agricultural cooperation in the life of the modern farmer. So vital has cooperative marketing become, that the farmer who does not join in the movement is almost always in an impossible economic position. Lacking the knowledge and the machinery that will enable him to produce in accordance with demand, and to achieve the best price for what he sells, he must fight a losing battle with the middleman. When a cooperative sells for the farmer, and brings into play bargaining powers as great as those of the distributor, a fair price must result.

## WHO OWES YOU A LIVING?

Millions of people are being educated in our country

today to believe that someone owes them a living. The laws of nature do not seem to recognize this doctrine. Just go out into primitive country and see who owes who a living—you will soon find that your existence depends on your ingenuity and initiative.

Governments were organized to go nature one better and make it a little easier to live and to take care of the helpless whom nature would otherwise unceremoniously remove.

But today millions of perfectly healthy, able-bodied people are being taught to loaf at the expense of the savings of others, instead of to rustle for themselves. Such a system can endure only so long as there are stored-up savings to confiscate, then the inexorable laws of nature will prevail.

An epidemic of pests completely devours a tree or a field of grain, and then the pests die. Nature does not owe them a living.

The same thing can happen to governments and to the human beings who make the governments—if they eat up their capital to maintain idleness, they will eventually find that nature refuses to hear their demands that "someone owes them a living."

This may not be a pleasant-sounding philosophy, but it is a fact which honey-coated, political cure-alls try to hide.

## NOW, THE GREATEST FIRE PREVENTION WEEK

Observance of Fire Prevention Week—from October 6 to 12—should be regarded both as a duty and a privilege by every citizen and property owner.

During the Week, which has been an annual event for many years, the public will be offered an unparalleled opportunity to learn of the hazards of fire and how they may be avoided and eliminated—as well as what course to pursue once a fire has started. Fire marshals and chiefs, insurance representatives, and public and private organizations will cooperate to the fullest extent to make the Week the success it deserves to be.

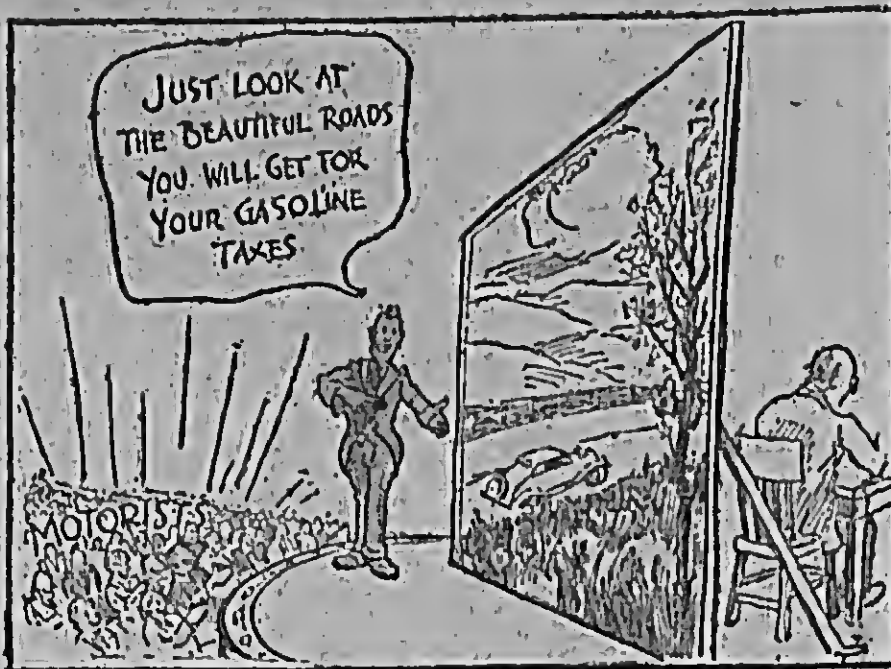

The public will learn of the danger of old or out-of-condition heating plants—one of the most prolific sources of fire. It will be instructed in the menace of improperly stored inflammable liquids and rubbish—and of the danger of accumulations of ancient furniture, clothes and knickknacks in basements and attics. It will discover that when we "save" a few dollars by making minor electric repairs ourselves, a disastrous fire may be the result. And it will learn that every town and city should have, above all, a first-class modern building code that will do away with existing fire-traps and make the construction of new substandard building impossible.

Thousands of lives that are lost each year through fire can be saved—as can hundreds of millions of dollars worth of property that goes up in smoke. Past Fire Prevention Weeks have done much to keep the fire loss, unnecessarily great as it is, from growing larger. Now everyone should contribute, as never before, time and interest that will make this Week the most successful and productive of all.

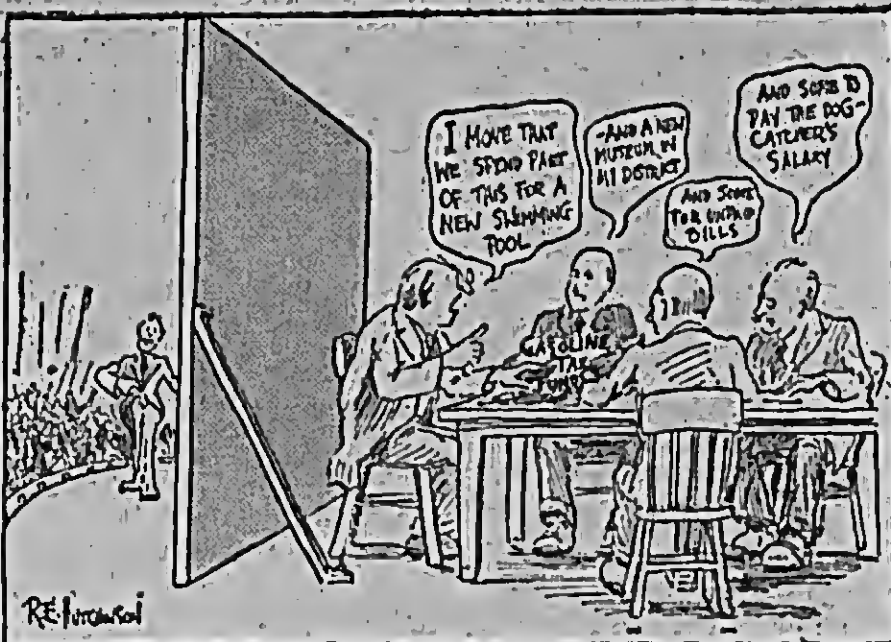

The assassination of Senator Huey Long is having the expected result—what Time characterizes as the "tightest, most profitable political dominion that the nation has ever known" seems to be rapidly breaking up, as lesser men fight for the lost leader's place.

It has also caused a great change in the political future. It seems to have eliminated the chance of a radical third party next year—and to have also eliminated the chance of a major split in the Democratic party. Senator Long, according to a book he completed just before his death, planned to run in 1936; felt certain of election.

## It's a Swell Picture, But—

## Look Behind the Scene!

NEWS ITEM: "Highway work has been curtailed in several states due to lack of funds, revenues from gasoline taxes having been used for other purposes despite pledge the money would be used to build roads."

## HICKORY

Miss Caryl Nielsen was elected President, and Miss Hazel Fields was elected Secretary of the Antioch high school freshman girls' club, at a meeting held last week.

Miss Dorothy Carney celebrated her twelfth birthday with a party for her young friends, at her home Saturday afternoon.

Paul Nielsen of CCC camp, Milwaukee, is home for a few days. Mr. and Mrs. Leo Thompson of Wheeling, were Sunday dinner and supper guests at the George Thompson home.

Miss Shirley Hollenbeck of Waukegan spent Sunday at O. L. Hollenbeck's. Mr. and Mrs. David Neveler and daughter of Union Grove spent Sunday at the Frank Barber home.

Frank Kennedy and Austin Savage were Waukegan business callers Friday morning.

Mr. and Mrs. Philip Gould and family of Grayslake visited the George Thompson family Sunday afternoon. Mr. and Mrs. John Schner and daughter, Alice, were Waukegan callers Friday.

Mrs. Nettie Wells visited Thursday with Mrs. Jennie Pickles at the W. D. Thompson home.

Miss Osmond took several of the school children to a show in Waukegan last Wednesday.

Frank Kennedy left on Tuesday morning for a week's hunting trip in northern Wisconsin.

Several old neighbors and friends from here attended the funeral of Peter Gleason at Grayslake on Monday.

Mr. and Mrs. A. T. Savage called at the Gleason home at Grayslake Sunday afternoon. Mrs. Emily Mann is visiting relatives in Waukegan this week.

A NEW discovery brings your hens extra vitality for disease resistance and heavy laying. It's PURINA MASH concentrated vitamin A from fresh, green plants such as carrots and spinach. PURINA MASH is now in all Purina Poultry Stores. Feed them for healthy hens and more eggs.

Antioch Milling Company. ANTIOCH, ILL.

**Laxey Wheel to Pump Mines**  
The Laxey wheel is in the town of Laxey, on the Isle of Man. There are no Laxey lead and silver mines. The famous Laxey wheel is a granite structure designed by Manx engineers and originally used for pumping these mines.

## CONLON AUTOMATIC IRONER

We'll prove it by doing your next ironing in your own home FREE

● Ironing time can be cut in half when you use a Conlon Automatic Ironer. Flatwork, the biggest part of the ironing, is done quickly. Shirts, dresses, children's clothes, etc., are ironed neatly while you sit at ease. Learn for yourself. Phone or call at your nearest Public Service Store and ask for a free home demonstration. A girl demonstrator will do a complete ironing for you in your home and prove how easily and quickly your ironing can be done. Then try the Conlon yourself. If you like it, special terms of \$2 down and as little as 66 cents a week on your monthly Electric Service bill.

To cover interest and other costs, a somewhat higher price is charged for appliances sold on deferred payments. To the prices quoted in our advertisements, and marked on our merchandise, substantially 3% it is to be added on account of additional tax expense.

## WILMOT

There will be English services at 9:30 and German services at 10:45 at the Lutheran church Sunday morning.

Mr. and Mrs. Arthur Flegel, Beaver Dam, were entertained Sunday by Mr. and Mrs. Oliver Balza at Kenosha.

Mr. and Mrs. Walter Carey and children, McHenry, were dinner guests Sunday at the Carey home.

Grant Tyler accompanied Irving Carey of Antioch to Madison Monday for several days.

Mr. and Mrs. David Kimball and Mr. and Mrs. Lynn Sherman, Shirley and Roger Sherman were at Genoa City Saturday for the funeral services of Mr. Kimball's and Mrs. Sherman's brother, William Kimball.

Lola Cairns was out from Chicago for the week-end with her parents, Mr. and Mrs. Walter Cairns.

Clifford Rasmussen returned Sunday evening to the Victory Memorial hospital after a week-end with his family in Wilmot. Mr. Rasmussen will have to receive treatments for several more weeks for an injury to his left hand.

Mr. and Mrs. Walter Cairns and daughter were Saturday evening guests of Mr. and Mrs. George March in Kenosha. Sunday the Cairns family spent at Koyatone calling on an aunt, Mrs. Lizzie Carr of South Dakota.

Mrs. Harry McDougall and Mrs. H. Sarbacher left Tuesday to spend three days at Madison attending Grand Chapter of the O. E. S.

Mrs. Thomas Madden is staying in Kenosha with Mr. and Mrs. Frank Madden.

Mr. and Mrs. H. Kotz and Lucille Smith of Kenosha were at the Runkel home Sunday.

Mr. and Mrs. William Harm, son, Rodelle, John Grabow, Mr. and Mrs. H. Frank and daughter were Friday evening guests of Mr. and Mrs. Frank McConnell, Jr., at Elgin.

Mr. and Mrs. E. Allen, of Pleasant Prairie, were guests Sunday of Mr. and Mrs. A. C. Stoen.

Mr. and Mrs. William Harm, John Grabow, and Mr. and Mrs. H. Frank and daughter were entertained Sunday by Dr. and Mrs. Elmer Grabow of Glen Ellyn.

The Wilmot Fire department was called to the Owen farm run by Alvin Holdorf Saturday noon to put out a fire in the main chimney of the house. The fire was confined to the chimney and was not allowed to spread. Chemicals were used and there was a plentiful supply of water.

Rollie Hegeman returned on Sunday from a week's vacation at the American Legion convention in St. Louis.

Mr. and Mrs. M. M. Schurr and family were in Milwaukee over the week-end. Miss Mildred Anderson, of Milwaukee, who has been their guest for the past two weeks, returned home with them.

Miss Dorothy Schooley was in Janesville for the week-end with her parents.

The following gathered at the home of Mr. and Mrs. Herman Seldschlag on Friday evening to celebrate Mr. Seldschlag's seventieth birthday: Mr. and Mrs. Albert Perkins and daughter, Coia, Chicago; Mrs. A. Jurgensen, Sylvia and K. Jurgensen and Henry Kisten, Kenosha; Mr. and Mrs. Jack Elbert; Mr. and Mrs. Clifford Pacey; Charles, Frieda and Alvin Pacey; Mr. and Mrs. Lester Seldschlag and family; Mr. and Mrs. Cyril Pacey and family; and Miss Anna Kroncke. The evening was spent playing cards, followed with serving of a lunch.

Mrs. Van Slyke and Mrs. Tilland Shay of Waukegan were entertained by Mrs. Ray Burton the first of the week.

## Union Free High School

The Freshman initiation party was held at the gymnasium on Friday evening. There was a large attendance with music for dancing furnished by the Norman Judele orchestra.

There was a field demonstration of hybrid corn the George Hyde farm Thursday afternoon. Ten different hybrids grown side by side were compared with several checks of standard varieties. This work is carried on to see what hybrids are adaptable to the locality. Work is under the direction of the local department of Vocational agriculture, County agriculture department and the University of Wisconsin.

In line with the safety program carried on by the local school, Sheriff Clarence Erickson, Kenosha, gave a very interesting talk before the assembly on "Accidents and How to Avoid Them," Monday morning. The local school appreciates the co-operation of county officials in this matter.

## Football

Wilmot High School defeated Rochester Friday afternoon 32-6 at the Wilmot field. Rochester presented a green team which gave a good account of itself. They drew first blood when Wado, Rochester end, took a pass from Jackson, Rochester full back. A plunge for the extra point failed giving Rochester a score of 6-0.

This seemed to rouse the Wilmot team and the half ended 26-6 in favor of Wilmot.

Rochester tightened up in the last half and Wilmot was forced to wait until the fourth quarter when Nelson plunged over for his third touch down. Schultz fumbled and a plunge for the point failed. The game ended with a score of 32-6.

It was the first Conference game for Wilmot. The team showed a true spirit on offense but the defense was very spotty.

The next game will be played against East Troy at East Troy on October 9th.

## Millions of Meteors

It is estimated that millions of meteors enter the earth's atmosphere every 24 hours; most of them are very small. They travel, however, at a high rate of speed, and were it not for the protection afforded by the earth's atmosphere they might prove a serious menace. Because of the terrific speed at which they move, according to a writer in the Washington Star, meteors are heated to incandescence by the resistance and friction of the air and all but a few of exceptionally large size are completely dissipated. Very large meteors, or meteorites, as they are called if they fall to the earth's surface, occasionally cause death.

## Maids From France to Louisiana

There were a number of young women sent to Louisiana in 1728 from France. Each of them had been given by the government an enamel containing wearing apparel from which they were called filles a la cassette, or casket girls. Other girls sent to the colony had been taken from houses of correction. It became at length a point of honor to be descended from the former and not from "correction girls."

## Supreme Court Judges for Life

United States Supreme court judges can be removed only for improper conduct in office, such as treason, bribery and other high crimes and misdemeanors. The only method of removal prescribed by the Constitution is impeachment by the house of representatives and trial by the senate. It never has been necessary to impeach a United States Supreme court judge.

## Early Jersey Suffrage

Women were permitted to vote in New Jersey from 1700 to 1807. This is probably the earliest instance for women suffrage in America.

## Yesterdays

News of By-gone Years in Western Lake County

## Forty Years Ago

Reduction in Price of Meats  
From and after this date we will sell the very choicest meats at the following reduced prices:

Bolling beef	5 to 8c per lb.
Pot roast	8 to 10c per lb.
Shoulder steak	10c per lb.
Round steak	10c per lb.

And all other choice cuts in proportion. Quality the best. Telephone connection with the lakes. Call us up. Whitehead & Shullist, Antioch, Ill., June 6, 1935.

The dead advertise not; then why don't you put an ad in the News and let your friends and our thousands of readers know that you are alive and ready to do business. It will pay you; you will pay us—in fact you will be happy to do so—we will pay it to some other fellow and make him happy too. He in turn will pay it back to you for goods he bought of you last year, and make you twice happy.

Rev. P. S. Lott delivered his first sermon at the M. E. church Sunday morning, and was listened to by a nice sized congregation. His theme was the Lord's Prayer and he handled it in a very pleasing manner. In the evening he read a poem on the work of the late general conference and preached a sermon full of good things for all. We hear many words of praise of Rev. Lott's sermons. He is a man of pronounced convictions, and believes in saying white is white at any and all times—in the pulpit and out of it.

## Twenty Years Ago

Miss Mahol Brogan entertained company from Racine Sunday.

Mr. and Mrs. Harry Smith returned the first of the week from their western trip.

Clifford Pacey and family of Bassett Station spent Sunday with Mr. and Mrs. Earl Shales.

Rev. E. K. Hester left Tuesday morning to attend the Rock River Conference which is being held at Englewood.

Miss Eva Felter returned home Tuesday morning from a few weeks visit at Watworth and other places in Wisconsin.

Mr. and Mrs. A. Rosenfeld and Mr. and Mrs. P. E. Chinn returned home Saturday after having spent a week motoring to various parts of Iowa.

A declamatory contest will be held in the M. E. Church Sunday, Oct. 10, at 8 o'clock. A silver medal guaranteed to the best speaker. Margaret Feller, Secretary.

## Fifteen Years Ago

Mr. and Mrs. D. D. Campbell returned home Saturday evening after having spent the past three weeks on a trip through the east. They visited relatives at Scranton, Pa., and took in the sights of many other places in Pennsylvania, New York and Toronto, Canada.

James Horan leaves today for a trip to Winnipeg, Canada.

Rev. S. E. Pollock returned home today from the Rock River conference.

Mr. and Mrs. Frank King returned home from their vacation trip Tuesday.

Mrs. George Bacon, worthy matron of the Eastern Star, is in attendance at the meeting of the Grand Chapter in Springfield this week.

Miss Ella Ames and Mrs. Ellen Ames left on Tuesday evening for Montana, where they will spend a month with relatives.

## Ten Years Ago

Mr. and Mrs. Henry Stoffer of Leon Lake have taken rooms at the Fairbank home for the winter.

Dr. and Mrs. H. F. Beebe transacted business at Geneva, Illinois, Wednesday of this week.

Mrs. W. Palmer is spending this week visiting relatives and friends at Lake Geneva this week.

Dr. and Mrs. H. F. Beebe leave Saturday, October 3, for their cottage at Casa Lake, Minn. They expect to be gone three or four weeks.

Mrs. Andrew Harrison was an all day visitor at the Tryons Grove school near Hobron, Ill., on Friday, where her daughter, Beulah, teaches.

Mr. and Mrs. Homer Stevens had their son and family of Waukegan for guests Sunday.

Mr. and Mrs. Kittle had relatives from Chicago at their home over the week-end.

## Stork Welcome Bird

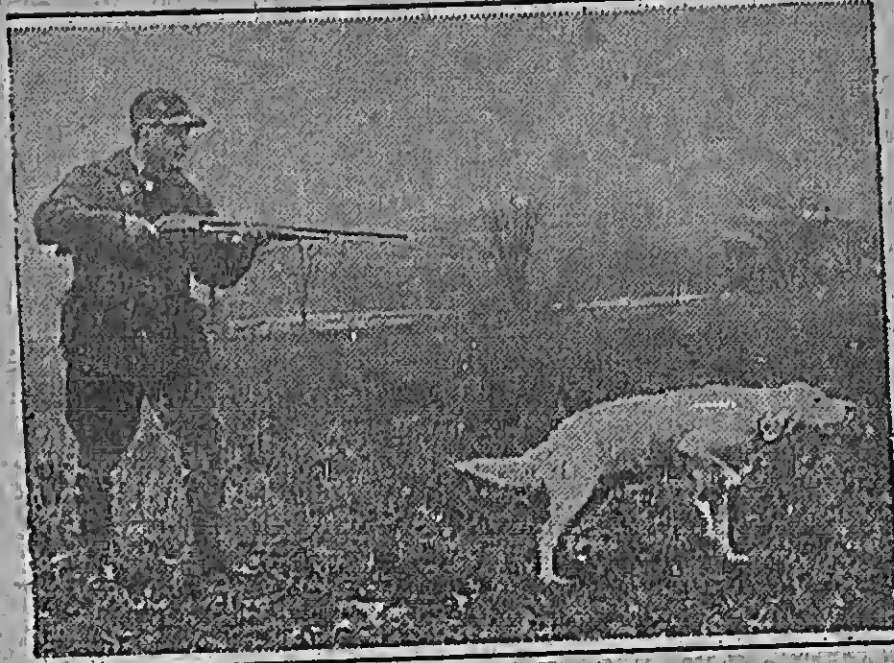

Throughout Europe the stork is considered a harbinger of good luck as well as of babies, and nearly every household hopes that a family of storks will build a nest on its chimney top when they return from Africa each spring. Some householders, living in districts no longer inhabited by these birds, even set up artificial nests and install wooden birds in them. Collier's Weekly.

## Annapolis Royal Survives Sieges

The most besieged town in North America, and the oldest north of St. Augustine, is Annapolis Royal in Nova Scotia. It went through 16 sieges in the century following 1613, and changed hands 12 times.

## The SNAPSHOT GUILD

LET'S GO HUNTING

It's the wise hunter who keeps his camera loaded and ready to snap the real story-telling pictures such as this one.

DON'T these cool, crisp fall mornings sort of give you the hunting fever? In spite of all the pleasures you had during the good old summer time you probably are looking forward to the fall hunting season; and as you sit in your favorite chair enjoying a good evening smoke, isn't it a lot of pleasure to just shut your eyes and have a grand time silently planning your trip?

There should be more to a hunting trip, however, than tracking your game; or anticipating that tense moment when the antlers of a fine young buck make their appearance through the trees; or he carelessly makes a wild dash into the clearing and you put up a valiant fight against a severe attack of "buck fever."

The appearance of your game and the exciting moment when you quickly raise your gun to your shoulder and pull the trigger, is one of the thrilling adventures of a hunting trip.

There are, however, many moments of relaxation and leisure, too. It is then that you should do a different kind of shooting. "Shooting" with a camera should not be overlooked for it is with snapshots that you can make a picture record of your trip and enjoy your expedition over and over for years to come.

Your snapshots can picture your trip from the time you and your hunting pals load your duffel bags, guns, blankets and other equipment until your return with—we hope—your trophies.

Space will not permit enumerating all the picture possibilities on such trips. Picture taking opportunities, however, seem to have the habit of appearing at the most un-

expected moments so it's the wise hunter who keeps his camera loaded and ready for action.

If you have never before taken snapshots under overcast fall skies it is important to remember that it will be necessary to give a longer exposure than ordinarily made under summer's bright sunshines.

But your snapshotting should not be confined to outdoor pictures for it is at night in the cabin or lodge you can take pictures of your party seated around the open fireplace swapping yarns and reviewing experiences in this and former hunting expeditions.

You will find that Photoflash bulbs will serve your purpose admirably. A Photoflash bulb is similar in appearance to a common electric light bulb and can be screwed into a special, but inexpensive holder, resembling an ordinary hand flash-light tube.

This can be purchased at almost any store selling photographic supplies. The flash is set off by pressing the flash button and it gives an intense light without any noise or smoke.

After placing your camera on a tripod or some solid support look into the finder and be sure you can see all who are to be included in the picture. Set the diaphragm at f/8 or U. S. 4, open the shutter after having been set for "time" and then flash the bulb. Be sure to close the shutter immediately after the flash.

It is not necessary to have the room in total darkness when the flash is made but be sure that a bright light is not shining directly into the lens of the camera.

Make your camera an important part of your hunting equipment and on your return have a picture story to show to your friends.

JOHN VAN GUILDER.

## TREVOR

Miss Edith Zarnstorff, Richmond, called at the Charles Oetting home Thursday.

Mrs. Florence Bloss, Salem, spent from Tuesday till Friday night with the Patrick sisters.

Mr. and Mrs. James Walsh visited the latter's sister in Chicago Thursday.

Dr. Warriner, Antioch, made a professional call in Trevor, Wednesday morning.

Charley Curtis, Kenosha, made a business call in Trevor Wednesday.

Chris Schafer accompanied John Becker to Kenosha Thursday.

Mr. and Mrs. Mort Neff, Watworth, Wis., spent Thursday and Thursday night with the latter's brother, Daniel Longman and family.

Mrs. Ray Bushing and sister, Channele Lake, were Wednesday evening callers at the Charles Oetting home.

Harold Mickie left Friday evening on a business trip to Montana.

Mrs. Richard Corrin entertained a number of friends at dinner on Friday.

Mr. and Mrs. Thomas Schulkins, Cleveland, Ohio, visited their aunt, Mrs. Ann Kimmel, and cousin, Will Van Osdel, over the week-end.

Mrs. Jessie Allen accompanied her brother-in-law and wife, Mr. and Mrs. Everett Allen, of Twin Lakes, to visit relatives and friends in Indiana.

Mr. and Mrs. Russell Jones, Kenosha, visited the Patrick sisters Sunday afternoon.

Will Van Osdel, who is ill, returned to Cleveland, Ohio, with his cousins, Mr. and Mrs. Thomas Schulkins, and will make an indefinite stay with his aunt, Mrs. Thomas Schulkins, Sr., and family.

Mr. and Mrs. Harold Pritchard and children, Downers Grove, Ill., and Miss Annie Gauch, Glen Ellyn, called on the former's cousins, Mrs. Luann Patrick and Milton Patrick, on Sunday.

Mr. and Mrs. Lee and son, Racine, spent the week-end with the Klaus Mark family.

Willie Shoen and Daniel Longman motored to Chetek, Wis., Saturday, where they visited the latter's daughter and family. Mrs. Shoen returned home with them Sunday after spending the past two weeks with her sister, Mrs. Florence Lindblat.

Johanne Baur, Chicago, was a Sunday caller at the Charles Oetting home.

Charles Oetting and daughter, Beatrice, returned home Saturday from a week's fishing trip to Grand View, Wis., bringing with them a good catch.

Allen Cooper moved his family from the late Josephine Bolton cottage to the Henry Ernie cottage on Saturday.

Mr. and Mrs. Albert Higgins and sons, Rollie and Russell, Kenosha, called on their niece, Mrs. Chris Schafer and family on Sunday.

Mrs. Harold Mickie spent the week-end with her aunt, Mrs. Fred Fowles, Lake Forest, Ill.

Calvin Stewart and son, Werve, Kenosha, called at the Arthur Runyard home Saturday.

Mr. and Mrs. Robert Lavenduski have moved into the John Friedhoff cottage.

Mrs. Alfred Dahl and Mrs. Charles Oetting were Kenosha visitors Monday afternoon.

There was a card party and dance at the Liberty Corners school house on Friday night. A large crowd was in attendance.

A number of Trevorites attended the class initiation at the school house, Wilmet, Friday evening.

## Cause of Winds

Wind is air in motion. If all parts of the earth were equally heated by the sun's rays, the atmosphere would be equally dense and in a state of perpetual calm. It happens, however, that the sun heats certain areas of the atmosphere more than it does others. The heated portions of the air expand and blow out over the cooler areas. The heavy air of the cool areas is no longer held back by the lighter air of the warm areas and rushes in to restore the equilibrium. Thus winds are formed, says the Washington Star. The direction of winds is considerably deflected by the rotation of the earth on its axis.

## Flowers as Traps

There are flowers that close immediately when other insects lodge inside them, and in the tropics there are larger specimens which ensnare small birds and mice. Scientists say that they extract the blood from small animals and birds and eject the carcasses. One, a Japanese flower, lures mice into its mouth and drowns them in fluid. Another kills dogs and even goats with its poisonous fumes.—Tit-Bits Magazine.

## Schools in Cellar

When children of Lapland go to school, they enter the building through the roof. Because of the severity of the climate, the schoolrooms are sunk below ground, and only the rooftops are visible from the exterior. In this Arctic region, the sun never rises at all during midwinter, nor sets during mid summer.

## LAKE VILLA

Rev. and Mrs. C. J. Howitt and Mrs. Howitt's sister, Miss Maude Bonham of Rockford, Ill., called on friends here last Wednesday afternoon. Rev. Howitt will not return to Moline, but will have charge of a church in the Rock River Conference this year.

Mrs. Mary Kapplo visited her son, Horace Kapplo and family at Grayslake all the week.

Walter Daniels of Seattle, Wash., was in town calling on old friends here last Thursday. He lived here with his parents some twenty years ago, and he, with Paul King, was the first to volunteer for service in the World War from our village. He is now located in Seattle and is license inspector for the city, but is on leave of absence now for a while as Commander for the State of Washington for the Veterans of Foreign Wars and was on his way home from attending a convention of V. F. W. in New Orleans. He has been a resident of Seattle for several years.

Mr. and Mrs. C. D. Hamlin drove to Gary, Ind., on Saturday and spent a couple of days with friends there. Mr. and Mrs. L. W. Felter, former teachers here, they returned Monday after having visited the fruit section in Michigan.

Mr. and Mrs. Eugene Sheehan, Jr., have moved to Antioch, to be nearer Mr. Sheehan's work in the Scott Dairy.

As next Sunday is Conference Sunday, and Rev. De Solms and family will be attending the session of the Rock River Conference in Elgin, there will be no preaching service in the morning, but Sunday school will be held at the usual hour. Rev. De Solms began his studies at Garrett Biblical Institute this week.

Mr. and Mrs. Carl Seeger and Mr. and Mrs. Ed Slater of Grayslake visited friends in Ann Arbor, Michigan, from Friday until Monday.

Mr. and Mrs. Horace Calver visited their daughter, Joan, who is in Beloit College, Wis., on Sunday.

Mr. and Mrs. Raymond Sherwood, who have spent the greater part of the summer here, started Monday for their winter home at Dunedin, Florida.

Miss Florence Seeger is spending a few weeks at Niles Center, Ill., with Mrs. Holly Wokum. Miss Seeger returned only a couple of weeks ago from a trip East.

Mr. and Mrs. Leonard Armstrong are receiving congratulations on the birth of a nine-pound son at St. Therese hospital on Monday morning and all concerned are doing well.

Mrs. Helen Weber was in Chicago on Tuesday as delegate to the Eastern Star meeting held in Madison Temple.

The Lake Villa Woman's Club met at Allendale with the President, Miss Gaunt, on Tuesday afternoon with a good group present to begin the year. An informal program was presented and two of the club members honored and two of the hostesses committee.

The Royal Neighbor Officers' Club met with Mrs. Fred Hamlin on Tuesday afternoon and following the business meeting, nine tables of 500 and luncheon were played with door prizes going to Mrs. W. F. Davis and prizes in 500 and luncheon were won by Mrs. H. H. Perry, Mrs. W. Davis, Mrs. Lela Barnstable, Mrs. Flint, Mrs. Hartley and Mrs. Hesselgrave.

Whether the accounts of the heroic deeds of William Tell be based on actual facts or mere tradition, it is a story which is still read and retold with enthusiasm in every Swiss school and every Swiss home. A dignified monument to the gallant archer of Burgen near Altdorf stands in the latter village, but the most beautiful of all tributes to this pioneer champion of Swiss liberty is to be found at Tell's Platte between Brunnen and Fluelen, on the spot where Tell leaped ashore from the boat in which he was being carried off as a prisoner by Gessler.

William Tell Story Liked

The Arapahoes are one of the typical Plains Indian tribes, belonging to the same language family as the Algonquians. Before the coming of the white man, they appear to have migrated southwest across the Missouri river from the region of the Red River valley of northern Minnesota where, according to their traditions, they lived a quiet agricultural life. In contrast to their roaming nomadic existence in historic times.—Washington Post.

Trim Zoo Animals' Toenails

Animals of zoo exhibits have to have their toenails cut, the reason being that they do not get enough exercise to keep the nails sufficiently worn down, and if the nail or claw were allowed to grow it would in time turn inward and lacerate the flesh. This operation is rarely an easy task for the keepers, but it is part of their daily work and must be done.

Nice Points of the Law

Nine points of the law have been given as: (1) A good deal of money, (2) a good deal of patience, (3) a good cause, (4) a good lawyer, (5) a good counsel, (6) good witnesses, (7) a good jury, (8) a good judge and (9) good luck.

## Uproot Street to Save

## Life of Stray Mongrel

Holse, Idaho.—It was only a mongrel dog, but an effort was spared to save its life.

The dog was trapped in an irrigation canal, its head wedged in a wood culch. One man offered \$5 to anyone who could free the dog. Another volunteered to swim down the ditch to rescue the animal.

Police and firemen were called. Street employees finally used hammer and chisel to tear up the street, ditch and concrete foundations, and the dog was freed. It feebly shook the water from its body and was on its way.

## "Hermit of the Platte"

## Is Alone for 69 Years

Tekamah, Neb.—The dean of Nebraska hermits is Fremont "Old Monte" Haswell, seventy-six years old, "Hermit of the Platte," who lives near the Missouri river, northeast of here. Except for two short intervals he has lived 69 years with only chickens and cats for companions on a tract home-steaded by his father in 1893.

## Finds Fingerprints

## of Ape Like Man's

Melbourne.—When monkeys and an ape in the Melbourne zoo had their fingerprints taken by Detective I. H. Thomas, fingerprint expert, he found at first glance not even an expert could tell the difference between prints made by an ape or a large monkey and the fingerprints of a man. All the human loops, whorls and bifurcations were there and each print could be classified in exactly the same way as a set of human fingerprints.

## Cormorant Fishing at Night

In Japan cormorant fishing is done usually at night. Torches are lit, and as the fish, attracted by the light, gather around the boats or rafts, the birds are let into the water. This method of fishing also saves bait for in daylight fishing with cormorants it is necessary to attract schools of fish by pouring a large amount of bait around each boat.

## Oldest Zoo Organization

The Zoological Society of Philadelphia was incorporated in 1859, and is the first organization formed in this country for the purpose of maintaining a zoological garden.

## Satyr and Dryad

A satyr is a masculine wood nymph; a dryad, a feminine wood nymph.

## Electric Light and Power

Now available for all Northern Illinois farms because of a new Electric Service extension plan

If you are now without the convenience, comfort, and utility of electricity, investigate our new Electric Service extension plan at once. Now it is easier than ever for you to have electricity for lighting, water pumping, water heating, cooking, and other domestic uses.

Our new plan has two important features. First, the monthly Electric Service guarantee has been reduced to 60% of what it was before. Minimum charges are lower.

And, if you don't feel that you can afford to wire your entire house at this time, you need wire only one room, and have the rest of the farm house and farm buildings wired when you can.

Complete information regarding this new plan will be gladly given by your nearest Public Service office. Phone or mail the coupon today.

**PUBLIC SERVICE COMPANY**  
OF NORTHERN ILLINOIS

PUBLIC SERVICE COMPANY  
OF NORTHERN ILLINOIS  
72 W. Adams Street, Chicago, Illinois  
Gentlemen: Without obligation please furnish me with complete information regarding your new Electric Service extension plan for Northern Illinois farms.

Name \_\_\_\_\_  
P. O. Address \_\_\_\_\_  
R. F. D. \_\_\_\_\_

## MILLBURN

Miss Ruth Edwards of Garfield Park, spent a few days at the home of her parents, Mr. and Mrs. Frank Edwards, leaving Sunday for the west coast to enter the Naval Hospital at San Diego, California. Miss Edwards received her nurse's training at Garfield Park Hospital, where she graduated a year ago.

Mrs. George Hennum, Mrs. Floyd Beaumont and daughters of Kansasville, Wis., spent Wednesday with the former's daughter, Mrs. Robert Benner.

William Ferry of Princeton spent the weekend in this vicinity.

Miss Elsie Brandt of Evanston is spending some time with her sister, Mrs. Bert Evans who is ill from an infection in a finger.

The Parent-Teacher association met at the school Tuesday evening with a good attendance. After the business session, motion pictures which had been seen by the school children during the day, were shown.

Different recs were received every two weeks for use in the school. Attention was called to the district convention of P. T. A. to be held at Lake Villa School Oct. 1.

Wobb Edwards and Miss Eva Wobb spent Sunday at Forest Park visiting relatives.

Mr. and Mrs. Harley Clark and family spent Sunday at Morton Grove.

Mr. and Mrs. Ed Druce of Grayslake called at the Marcus Hoffman home Sunday afternoon.

Mr. and Mrs. Frank Hauser and family spent Tuesday evening with Mrs. Hauser's parents, Mr. and Mrs. Hoff at Camp Lake, Wis.

Mrs. Constance Pickles of Hickory called on the D. B. Webb, George Edwards and Frank Edwards families Tuesday.

John Niel of Waukegan called on his sister, Mrs. E. Fuller, Friday evening.

Mrs. E. A. Martin and Richard were guests for dinner at the home of Mrs. Florence Achen in Kenosha Thursday evening.

## Air Is Very Light

All substances have weight, but air is very light. A column an inch square extending from sea level upward as far as the atmosphere goes weighs about 15 pounds. This is known as atmosphere pressure.

## First Against Slavery

The Mennonites were the first group to advocate the abolition of slavery in the colonies, making their first recommendations in this matter as early as 1688.

## HIGH-STYLE SATIN

By CHIERIE NICHOLAS

Satin continues to hold its glamorous sway in fashion's realm. The tones and tints of the present evening satins are enchanting. The model pictured is typical of the trend of the mode as to the exquisite styling given to formal satins. A luxurious silver fox cape tops this satin gown which is in soft almond green—an especially effective color with sun-tanned skin. It is made with deep V décolletage. The front fullness given to the skirt is distinctively chic and describes the newest silhouette movement. In fact front fullness is one of the most important dressmaker topics of the moment since fall styles both daytime and evening stress this feature.

## London Street Names Duplicated

London's streets provide thousands of cases of duplication of names. "Church" occurs 80 times, Victoria 74 times, Park 62 times, Queen or Queen's 61 times, and King or King's 58 times.

## Use of Word "Anesthetics"

The word "anesthetics" was first employed by Dr. Oliver Wendell Holmes.

## OF INTEREST TO THE MOTORIST

Walking on a skylight put a young boy in the hospital recently. He said he had often wondered if he could walk on glass without breaking it.

Figuratively, every motorist or pedestrian who takes a chance in traffic is travelling on a skylight, and a pretty thin one at that, notes the accident prevention department of the Chicago Motor Club.

Police in Zagreb, capital of Croatia-Slavonia, Yugoslavia, have introduced a novel and effective method of dealing with violators of motor vehicle regulations, states a report to the Chicago Motor Club. Instead of arrest and subsequent penalty, the offender is ordered to "pull over" and instructed to deflate all tires. Accidents have decreased materially, it is said.

Dangerous points on Illinois roads are being mapped by the state highway department from compulsory accident reports provided for in the new traffic code. The pink report blanks became available recently at police stations, sheriff's and coroners' offices, and the Chicago Motor Club branches.

The code requires the driver of a vehicle involved in an accident bringing death or injury to any person to fill out a blank and mail it to the Traffic Engineer, Division of Highways, Springfield, within twenty-four hours. If the driver is physically unable, any other person in his vehicle capable of making the report must write it or have it written. The penalty for neglecting it is a fine of not more than \$100, or imprisonment for not more than ten days. No report is necessary when damage is confined to property.

## Hogs Growing Heavier

There have been reports in the last few years of hogs weighing from 1,850 to 1,900 pounds, which are unusual. It is not uncommon for mature animals to weigh 1,000 to 1,200 pounds.

## High Price for Manuscript

Seventy-five thousand dollars was paid for the manuscript of "Alice in Wonderland."

# Apples, Cider Maple Syrup Honey

The first two cars of apples from the Bay-Lake Fruit Farms for this season have arrived at the store near **NORTHSHORE GARDEN of MEMORIES GREEN-HOUSES** on Green Bay Road.

**WEALTHY AND WOLF RIVER APPLES  
MAKE UP THESE CARS**

**JONATHANS, McINTOSH REDS, WAGENERS AND  
OTHERS WILL COME LATER. TWO CARS  
PER WEEK ARE EXPECTED.**

**Apple and Cherry Cider; Super-quality canned Raspberries, Strawberries, and Cherries; also Maple Syrup and Honey of the finest quality, on sale at lower prices than ever before.**

This is the 17th annual sale of these toothsome and health-giving products. Chicago folks already are coming past a dozen fruit stands to get this fruit. The characteristics of a good apple are **JUICINESS, FLAVOR, FINENESS OF GRAIN, and COLOR.** In the first three—the essential qualities—the apples from the Bay-Lake Fruit Farms are as much superior to the apples grown in nearly all other localities as is an all-wool, well-made suit of clothes superior to a sleazy, all-cotton suit. But some folks do not know that. With that class of people "an apple is an apple," no matter where grown or what the variety. In the non-essential feature of color the apples from the Bay-Lake Fruit Farms are superior to those grown anywhere else except in the extreme Northwest, and color is the only feature in which apples from that region excel. Discriminating people know that they do not compare favorably in any other quality. It is the inalienable right of every child in this land of many health-bestowing fruits to have as many juicy apples as he wants to eat every day. The writer of this statement has a grandson 10 yrs. old who eats 8 to 12 apples daily when he can get them. He is almost as agile as a squirrel, is strong beyond his years, is a stranger to illness, "growing like a weed," and is alert mentally.

Thousands of other children would make an equally favorable showing if given all the juicy, fine-flavored apples they would eat daily. The same reasoning applies to adults, although men and women do not need so many apples daily. Many persons, in their more mature years, find that cooked apples are preferable. The writer saw examples of men and women who ate fruit two or three times a day with great regularity, who are upwards of 75 years of age and are active both physically and mentally and have been practically free from sickness during all the years they have practiced that feature of diet.

People who buy apples at stores in 25-cent lots usually pay around \$4.00 per bushel and get inferior apples even at that price. This shows the superior wisdom of the many hundreds of families who buy apples freely from the Bay-Lake Fruit Farms annually for several months every year. They may obtain apples in quantities ranging from half a peck to as many bushels as they want but by reason of the greater expense of growing such apples and of the extra freight charges in bringing them to this section we cannot sell our apples for the price accepted for apples that are almost tasteless and low in juice content.

The **APPLE CIDER** and the **CHERRY CIDER** sold by the Bay-Lake Fruit Farms are positively superior to any drink that is being sold under that name. No apples which have lain on the ground or have worm holes or decayed spots are used in making our apple cider, while a scientific process worked out by the scientists of the Michigan State College of Agriculture is used to clarify this cider, so that it "looks like champagne," as some persons who are informed on that subject have stated. Our sales of this product have increased annually during the last 17 years, and that remark applies to the cherry cider.

We opened the season with a stock of exceptionally fine **MAPLE SYRUP** and **STRAINED HONEY**, but one institution very soon took nearly all of the maple syrup and at the time this goes to print we do not know whether or not we can obtain any more from the same source.

Our **CANNED RASPBERRIES** and **STRAWBERRIES** are superior to any found in any grocery stores. Only the highest priced stores of the larger cities sell such canned goods.

**THE STORE WILL BE OPEN FROM 7 A. M. to 7 P. M. DAILY UNTIL THE ARRIVAL OF FREEZING WEATHER.**

## Bay-Lake Fruit Farms Store

Near North Shore Garden of Memories Greenhouses,  
on Green Bay Road

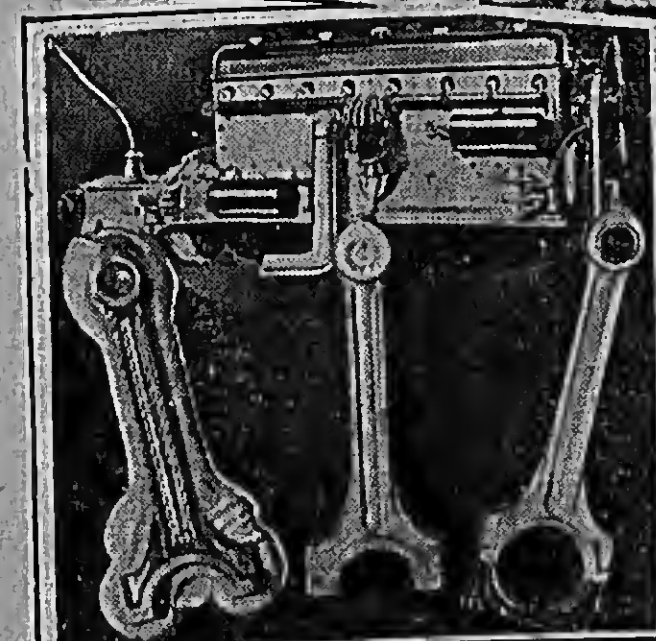

## THE Camirror

**BEAUTY AND THE**—Uncle Arthur who claims to be one of the world's ugliest men with two of England's most beautiful children.

**ETHEL HOLT**, the girl who made the cigarette hat famous, poses in her newest fall bonnet—The "Voyageur" from Knox. It's made of fine beaver felt with tall, shaggy, smocking on the crown.

**REPEAL HAS LENT NEW INTEREST TO TEA-TIME**—Here are pictured Mrs. Crawford Blagden, Jr., serving a cocktail to Mrs. Thomas M. Carnegie, Jr. The finer straight whiskies and blends, such as those produced by Seagrams, are preferred by smart hostesses.

**GOOD CONNECTIONS**—Bohnallite aluminum alloy (left) is forged into rough connecting rod (center). Rod is turned into finished product (right), then installed in Nash motor (above), where lightness practically eliminates bearing failure. Bohn laboratories are experimenting with bearing material enabling motors to turn 4,500 RPM, increasing power, improving performance.

**DETROIT TIGERS** in World Series—Left to right, front row: Rowe, Clifton, Baker, coach; White, Cochran, manager; Perini, coach, and Fox. Second row: York, Auker, Owen, Hayworth, Rogell, Borrell, Bridges and Greenberg. Third row: Schuble, Dollack, Gehring, Hamlin, Hogsett, Marberry and Goslin. Rear row: Fletcher, batboy, Crowder and Walker.

**GLADYS SWARTHOUT** Wins Dual Fame—Besides the distinction of having been the youngest star to enter the Metropolitan Opera, Gladys Swarthout has won fame as the best groomed woman of the Metropolitan Opera. Her appearance on "The Voice of Firestone" radio hook-up every Monday evening, is helping to make her one of the best known and most popular figures in musical history.

## Telephone Cupboard Opens into Two Rooms

A most convenient little gadget in the telephone cupboard built in a wall. It may have an elaborate door, or it may have a simple paneled door, or, if you desire it to be very inconspicuous, you may cover it with the same wallpaper as covers your walls.

The door lets down, serving as a desk. There is storage space provided in the wall for a telephone book and a pad of paper and pencil, and the beauty of the thing is that the door opens not only on this side of the wall, but on the other side also, making it possible for you to phone from either one of two rooms.

Cost of improvements of this type may be paid with modernization credit obtained from a bank or other financial institution which has a contract of insurance with the Federal Housing Administration.

## Radiator Modernization

With fall weather approaching rapidly, the housewife's thoughts turn to winter draperies and the price of coal. Radiators are not a decorative asset to any room regardless of the time of year, but at this season they seem more of a bugbear than usual.

In new construction, radiators are being built in and made as inconspicuous as possible. However, this is not always possible when a house is being remodeled. To meet this situation, radiator covers may be purchased. When the Modernization Credit is being used for the rehabilitation of a house, unsightly radiators may be hidden from view by means of built-in covers. This also provides additional space for the storage of books and other trinkets.

## Helpful Hints

Pumpkin sauce is improved by the addition of a little salt.

Bread crumbs added to scrambled eggs not only improves the flavor but make larger servings possible.

A teaspoon of baking powder in the water in which meat or vegetables are cooked will make them tender.

Wilted celery can be revived and made crisp by placing in cold water to which a teaspoon of vinegar or lemon juice has been added.

Instead of mixing and cooking chopped onion with dishes requiring such seasoning try adding only the onion juice which can be extracted by grating the onion.

If you want your cake icing to remain soft add a pinch of baking soda to the whites of the eggs before beating them then pour the hot syrup over the beaten egg whites.

Whipped evaporated milk may be substituted for expensive whipped cream in most recipes.

It takes less sugar for stewed apples, cherries, etc., if sugar is added after cooking.

## POPCORN BALLS

2 cups sugar  
1/3 cup water  
1/4 teaspoon cream of tartar  
1 teaspoon vanilla extract  
2 quarts popped corn  
1/3 cup molasses  
2 tablespoons butter  
Few drops red vegetable coloring.

Cook the sugar, cream of tartar and molasses until a little dropped into cold water forms a hard ball—If using a candy thermometer, cook to 250 degrees F. Add the butter and vanilla, divide the popcorn into two portions, pour half the hot candy over one portion and stir until the corn is coated. Color the remaining candy with the vegetable coloring, pour this over the other half of the popcorn and when cool enough to handle, roll and press into balls. When cold, wrap in wax paper.

## GRAPE FUDGE CONSERVE

6 pounds ripe grapes  
1 pound nuts  
5 pounds sugar  
1 pound raisins  
Wash and stem grapes. Separate pulp and skins. Place pulp in saucepan. Cover. Simmer until soft. Rub through sieve. Combine sieved pulp, skins, sugar and raisins. Simmer slowly, stirring frequently, until thick. Add broken nuts. Simmer 5 minutes. Pour into freshly sterilized glasses. Cover with melted paraffin.

## LUCIDS

Minister—I do wish I could think of some way to make the congregation keep their eyes on me when I'm preaching such good sermons.

Little Son—Father, you want to put the clock right behind the pulpit.

Stranger—Can you tell me where Bill Jones is?

Native—Well, we have two men around here named Bill Jones. Now, if you want the one that works in the saw mill, I don't know where he is 'cause the mill ain't been running for sometime. But if you mean the young man who works in the drugstore, I don't know where he is, for he got discharged yesterday for drinkin' too much saddle water.

## New! Fur Coat and Woolen Ensemble

By CHERIE NICHOLAS

THIS THRILLING event which is casting their shadows before in an entirely new type of ensemble which works dress and lining of smart woolen in conjunction with coats of hand-knit fur into the 'ninth degree of awn. Watch the excitement when once the college girl glimpses this sort of costume which is entirely new in the field. It's this way, the woollens for fall are absolutely irresistible. Yielding to the lure of the perfectly fascinating new wool weaves and sensing untold possibilities in their use, manufacturers of fur coats are playing up the idea of lining their garments with gay plaids and checks or a novelty woolen of some sort or other.

To be explicit, the new costume scheme, which is taking the world of fashion by storm, lines a chic fur coat with the same stunning woolen as makes the dress or skirt, with matching gilet that completes the ensemble. As soon as the first chilly autumn winds blow you will see this type of costume crowding the landscape for daytime wear in town, in country, on campus, in the grandstand or far travel whether you go by train, boat, auto or airplane.

The coats may be hip length, finger-tip length or three-quarter or seven-eighth, just so it is always somewhat shorter than the accompanying woolen skirt, so that some fraction of the skirt shows below, thus co-ordinating the ensemble even when the coat is buttoned tight and only a scarf, the collar lining or the gilet top shows above the fur.

The coats of these costumes are versatile, although generally speaking they are fashioned on swaggar lines. A dashing figure they cut, when left unstuffed to fly out "accidentally on purpose" when in motion so as to artfully show off their smart gay linings.

Furs of most intriguing type are employed so as to dramatize the picture. Favored pelts include snowflake, nutria, sheared panther, gray or beige kidskin and various spectacular spotted furs.

The illustration presents the new wool-and-fur ensemble idea in two versions selected from any number of equally as fascinating models, as worked by high-style designers. For football weather the costume, as pictured to the left, is sure to satisfy the style aspirations of any co-ed sophisticated as ever she may be. This swaggar coat of sheared panther is lined with green plaid woolen which is firm of texture yet light in weight. It is identical to that used for the two-piece sports tailleur, that completes the ensemble. Hown slick by the wind, the charm of the costume is enhanced when the coat lining flashes its note of color. The neckline of the tailored suit jacket of wool weave is mannish, in-line with its notched lapels. The sports hat of smart off-face type is of felt in a dark green to harmonize with the wool plaid of the suit.

The girl standing to the right is ready to step into her open car and drive to the football game, serene in the knowledge that she will be comfortable, plus modish, all day and all evening during the drive home, no matter how suddenly the temperature may drop. For this beautifully styled outfit of supple kidskin is worked on dressmaker lines together with a checked rabbit woolen black and white for the wrap-around skirt and also as it appears in the lining of the wide flaring collar on the knee jacket top and as it is glimpsed at the wristline of the bell sleeves. Her cap is of kidskin with a sporty pointed visor down over the forehead at the right side.

## Bran Muffins For Breakfast

By Barbara B. Brooks

GRACE BRADLEY, Paramount actress, enjoys preparing her own leisurely Sunday breakfast. Since her reputation as a cook has spread throughout Hollywood, she usually finds it necessary to prepare an extra supply for guests, invited and otherwise. Miss Bradley combines all-bran and bananas in a delicious healthful muffin recipe which calls forth admiration from all her friends. Anyone wishing to emulate Miss Bradley's success as a muffin maker will do well to try this excellent recipe:

All-Bran Banana Muffins  
2 tablespoons shortening  
1/4 cup sugar  
1 egg (well beaten)  
1 cup sour milk  
1 cup all-bran  
1 cup flour  
1/2 teaspoon soda  
1/4 teaspoon salt  
1/2 teaspoon baking powder  
1/4 cup chopped banana

Cream shortening and sugar; add egg, milk and all-bran and let stand while measuring remainder of ingredients. Sift flour with soda, salt and baking powder. Cut banana in small pieces and add to sifted dry ingredients. Add to first mixture and stir only until flour disappears. Bake in greased muffin tins in a moderate oven (400° F.) for 20-25 minutes.

Yield: 16 small or 8 large muffins.

Here is still another well tested muffin recipe in which chopped nuts are used instead of fruit:

Rich All-Bran Muffins  
1/2 cup shortening  
1 cup light brown sugar  
1 egg (well beaten)  
1 cup sour milk  
3/4 cup all-bran  
1 cup flour

Unexpected guests arrive when word gets out that Miss Bradley has made a batch of muffins.

1 1/2 teaspoons baking powder  
1/4 teaspoon salt  
1/2 cup chopped nuts

Cream shortening and sugar; add egg, sour milk and all-bran. Sift flour with baking powder, salt and soda. Add nuts to flour and add to liquid mixture. Stir only until flour disappears. Fill greased muffin tins two-thirds full and bake 25 minutes in a moderate oven (400° F.).

Yield: 12 large muffins.

## Did You Ever Try These Recipes? Do, Please

### VEAL BIROS

Cut thinly sliced veal steak or any lean cut of veal into pieces about three by five inches. Even the surface by pounding with the flat side of the meat cleaver, dredge with flour, pepper and salt. On each piece put a spoonful of stuffing made of fine bread crumbs, seasoned with a pinch of summer savory, 1/2 tablespoon minced onion if liked, and pepper and salt. Moisten with melted butter but no water. Roll veal strip around the stuffing, fasten with wooden toothpicks or tie with string; add be sure to fasten ends so the stuffing will not cook out. Heat beef drippings hot in skillet, and brown the rolls all over. Then put in baking pan, turn in cup half milk and half water, hot but not boiling, and melt in it a tablespoon butter. Cover pan and bake slowly for 20 minutes, then uncover pan and bake slowly for 20 minutes; then uncover and brown. Remove to hot dish, slightly thicken pan gravy and pour over rolls, and garnish with parsley. If it is desired to extend this dish, the "biros" may each be served on a piece of buttered toast from which the crusts have been trimmed. Pieces of uncooked macaroni can be stuck in the rolls to represent the "biros" legs, and paper frills put on these.

### PEPPER STICKS

1 cup butter and shortening, mixed  
1 1/2 cups sugar  
1 egg  
1/2 cup milk  
1 teaspoon soda  
1 nutmeg, grated  
1/2 teaspoon pepper  
Flour  
Cream the butter, shortening and sugar, add the well-beaten egg, then the milk, also the soda dissolved in a very little milk, together with the grated nutmeg and pepper. Work in enough flour to form a dough—2 1/2 to 3 cups. Form into long rolls like bread sticks and cut in 2 or 3-inch lengths. Bake on greased baking sheets in a moderate oven.

### SWEET CIDER CAKE

1 egg  
1 cup sugar  
1/3 cup melted shortening  
1/2 cup sweet cider  
2 cups flour  
1/4 teaspoon salt  
1/4 teaspoon cinnamon and allspice  
1/2 teaspoon soda  
1/2 teaspoon baking powder  
Beat the egg until light, add the sugar gradually, then the melted shortening, next the cider and lastly the dry ingredients, which have been sifted together two or three times. Beat well and bake in a greased loaf cake pan in a moderately hot oven. Frost when cool with brown sugar frosting.

### SOUR MILK DOUGHNUTS

1 cup sour milk  
1 cup granulated sugar  
1 teaspoon soda  
1 egg  
1 tablespoon butter  
Flour  
Dissolve soda in milk, beat egg with sugar and add milk, also melted butter. Add by spoonfuls flour until a stiff dough that can be rolled is reached. Cut out and fry in hot shortening deep enough to float the rings. When cold, put in paper bag with powdered sugar and grated nutmeg and shake until coated.

## STATEMENT OF OWNERSHIP, Management, Circulation, Etc., Re- quired By The Act Of Congress Of August 24, 1912.

Of Antioch News published weekly, at Antioch, Illinois, for October 1, 1935.

State of Illinois, County of Lake. Before me, a Notary Public in and for the State and county aforesaid, personally appeared H. B. Gaston, who, having been duly sworn according to law, deposes and says that he is the publisher of the Antioch News and that the following is, to the best of his knowledge and belief, a true statement of the ownership, management, etc., of the aforesaid publication for the date shown in the above caption, required by the Act of August 24, 1912, as amended by the Act of March 3, 1933, embodied in Section 637, Postal Laws and Regulations, to-wit:

1. That the names and addresses of the publisher, editor, managing editor, and business managers are: Publisher, H. B. Gaston, Antioch, Illinois.

Editor, H. B. Gaston, Antioch, Illinois.

Managing Editor: H. B. Gaston, Antioch, Illinois.

Business Manager: H. B. Gaston, Antioch, Illinois.

2. That the owner is: H. B. Gaston, Antioch, Illinois.

3. That the known bondholder, mortgagee, and other security holder owning or holding 1 per cent or more of total amount of bonds, mortgages, or other securities are: Hazel Sibbey, Antioch, Illinois.

(Signed) H. B. Gaston, Publisher. Sworn to and subscribed before me this 30th day of September, 1935. S. Boyer Nelson, Notary Public. (My commission expires January 6, 1939.)

## FOOD MARKET

## Advice-

THERE is no discouraging news for the meal planner and marketer this week for prices have changed very little in any of the chief food groups. SPINACH and PEAS are higher but GREEN and LIMA BEANS are lower and very reasonable, and such changes just about neutralize each other.

### Meats No Higher

Meat prices continue at a fairly constant high level with BEEF and LAMB the best values available. FOWL, FRYING CHICKENS and DUCKS are also reasonable. FISH prices are attractive and fish itself is an excellent and appetizing food. Fish fillets alone may be prepared in dozens of ways to give variety.

### Vegetables Excellent, Reasonable

Both summer and fall vegetables are in market also by side. SUMMER SQUASH, EGGPLANT, PUMPKINS, ACORN and HUBBARD SQUASH, green BEANS and PEAS on the stands with BRUSSELS SPROUTS and RED CABBAGE. Heirloom MUSHROOMS are again fairly plentiful and moderate in price. The CORN season is practically over but TOMATOES, PEPPERS, CUCUMBERS and EGGPLANT are plentiful and cheap. SWEET POTATOES are now cheap as are BEETS, CARROTS, ONIONS, PARSNIPS and TURNIPS. Brussels Sprouts, BROCCOLI and CAULIFLOWER are all moderate in price.

Apples Outstanding Fruit  
Many varieties of APPLES are in market, the McIntosh outstanding in quality and price but greenings, wealth, Yorks and Staymans close competitors. Western Jonathans and Heliogons are recommended for eating and home benefits for baking.

Melon Variety Remarkable  
People who like MELONS have many choices from the well-known CANTALOUPE and HONEYDEW through PERSIAN, CASABLANCA, Winter WATERMELONS and HONEYMOONS. PEACHES are less plentiful but both native and Western Bartlett PEACHES are abundant. Fresh PRUNES are also important.

Butter, Eggs, Cheese Reasonable  
The prices of BUTTER, EGGS and CHEESE are practically unchanged. No one of these excellent foods should be neglected.

Here is a menu based on foods which are reasonable and moderate in price.

Stuffed Celery  
Roast Lamb  
Green Beans  
Lettuce and Cabbage  
Bread and Butter  
Cranberry Pie  
Coffee

Browned Potatoes  
Green Beans  
Bread and Butter  
Cheese

\*This menu tested and tasted in the A&P Kitchen.

### Guatemala City

Guatemala City is the most urban of all Central American capitals—a city of modern buildings set among evergreens and feathery palms with a temperature of perpetual spring.

### Tar Base of Many Products

Tar, obtained during the manufacture of gas from coal, is the base of more than 2,000 byproducts, including dyes, antiseptics, acetone, flavoring essences, aspirins, and mothballs.

## STORAGE FINE WAY TO USE IMPROVED FALL GARDEN CROP

Urbana, Ill., October 3. One way to cash in on the much better crop of fall vegetables in evidence in most gardens this year is to store them where they will keep for winter use, said L. A. Somers, vegetable gardening extension specialist at the College of Agriculture, University of Illinois. Plenty of stored vegetables will help save money on living costs and contribute a healthful variety to winter meals.

Irish potatoes, carrots, beets, turnips, rutabagas, celeriac and winter radishes all are subject to damage from freezing, rotting or drying out. Consequently, they must be kept between 50 and 32 degrees and in a damp atmosphere. Such vegetables may be placed in boxes of slightly moist sand in the cellar or in sunken and covered barrels, Somers said.

Parsnips, horseradish, and salsify, not being subject to freezing, can be stored in much the same way except that little or no precaution is needed to protect them from below-freezing weather.

Cabbages may be stored outdoors by pulling them, roots and all, and placing them, heads down, in a long, low ridge, Somers explained. This ridge should be covered with straw and dirt with the soil layer being increased as colder weather approaches. For storing indoors, cabbages should be cut out of the crown, the diseased and discolored leaves removed and the heads stored on slatted shelves near the ceiling of a dry, well ventilated cellar. Onions and sweet potatoes should be stored in a similar manner after they are thoroughly cured and before cold weather arrives.

Since pumpkins and squashes are not subject to drying out, they may be stored on slatted shelves similar to those used for sweet potatoes. However, they should be allowed to mature on the vine and removed by cutting the stem an inch or more from the fruit.

Celery, leeks, kale and parsley, can best be stored by being taken up with a ball of moist earth surrounding the roots and placed on the floor of the cellar. Moisture can be added when absolutely necessary by applying water to the soil. Such vegetables also can be stored in trenches out of doors.

## Beat Cubs, 8-3, in Second World Series Game

**DETROIT TIGERS**—L to R, rear row—Carroll, trainer; Rogell, shortstop; Hoggatt, pitcher; bat boy; Bridges, pitcher; L to R, second row from rear—Schubert, Sorrell, pitcher; Ketter, Sullivan, pitcher; Crowder, pitcher; Walker, outfielder; L to R, third row from rear—Gehring, second base; Shelley, Owen, third base; Hayworth, catcher; Schoolboy Rowe, pitcher; Anker, pitcher; Greenberg, first base; L to R, front—Fox, outfielder; White, outfielder; Perkins, coach; Mickey Cochrane, catcher and manager; Baker, coach; Clifton, second base; Gasslin, outfielder.

### The Buffalo Bug

The buffalo bug or buffalo moth is the larva of a species of carpet beetle which was imported from Europe, probably in shipments of carpets, about 60 years ago. The beetle itself is a small black and white one, with a red line down the middle of its back. The eggs are laid among the fibers of the material on which the larva will feed, whether carpet, woollens, furs or cotton. Carpets placed permanently on the floor and allowed to remain undisturbed for a year furnish ideal conditions for the pest. Polished floors and rugs that are easily and often removed will tend to eliminate it.

### Alkaline and Acid Soils

Alkaline countries are Australia, North and South Africa and the Pacific slope of North and South America (also Mexico, Central America) and a few other spots, as is to this country west of the Missouri river. All other countries have neutral or acid soils. All ten countries, China, Japan, Formosa, India and all places of heavy rainfall have acid soils.

### Dog Similar to Human Beings

The dog is a bundle of inhibitions, stimulations and complexes exactly as human beings, being subject to the same phobias and mental nervous disorders as man. Apart from the familiar traits of jealousy, affection, shame and fear, the dog matches all of man's emotional peculiarities and moods.

### Prosperity and Happiness

Prosperity and happiness in life result from being born "under a lucky star."

## PLAN FOR ADEQUATE NATIONAL DEFENSE

### Rebuilding of the Army and Navy Is Under Way.

Washington.—New steps, fostered by the administration, for more adequate national defense are being made on three fronts—land, sea and air. Plans for new battleships are under way, a mechanized army of swift mobility is being speeded, and new air bases along the coasts are to be established. These are the foremost protective measures.

Congress has given the government sufficient funds to develop a mechanized army and a seafaring navy of smashing gun power. More than \$900,000,000 was supplied in the 1935 army and navy appropriation bills.

### High-Speed Tanks

The army plans to equip more infantry units with the high-powered semi-automatic rifle, which has three times the firing power of the standard Springfield rifle. Acquisition of high-speed armored tanks capable of traveling 70 miles an hour and combat cars, equipped with sponge-rubber tires and with turrets containing 50 caliber machine guns, and one pounder rifles, is to follow.

New armor protection has been developed for seven and 15-ton trucks, to be obtained. Armored scout cars equipped with radio and carrying 50 caliber machine guns are on the schedule.

With the Wilcox air base bill enacted the administration is looking forward to the gradual adoption of a new policy of national defense.

The Wilcox bill, recently enacted, authorizes the establishment of a series of air bases along the Atlantic and Pacific coastlines, on the Gulf of Mexico and in Alaska. It is hoped that as much as \$125,000,000 will be expended on the creation of these bases during the next five years.

### Wall of Defense

Proponents of military aviation claim these air bases will establish a veritable "Chinese wall" around this country and that it will be adequate in defending it from attack.

The new air bases will be linked up with naval stations wherever possible to provide the maximum of efficiency. The United States is also drafting plans for new naval vessels that can be thrown into production at once—in the event of a world naval race.

Naval leaders here hope the British-Japanese program of announcing in advance, what the naval program of each country will be for some years to come, will achieve results of mutual confidence that are predicted for it.

But they are skeptical, and frankly believe there is little hope of any effective results from a "gentleman's agreement" that isn't even over a signature.

In any event, this country will be forced to build seven new battleships, weighing about 35,000 tons and costing about \$50,000,000 each, before 1942. That program will not increase the American naval strength. The ships will be replacements of vessels already in service.

Approximately half a dozen cruisers also must be replaced on the same basis, and by the end of the period the aircraft carriers Lexington and Saratoga will be nearing the obsolescence stage.

### An Odd Law

Incredible as it sounds, there are states in this country in which a father can not only will away the guardianship of his children—without consent of their mother—but also will away the future custody of an unborn child. —Bessie Lowery, Presidio, Texas, in Collier's Weekly.

### "Regius" Professor

"Regius" professor is a name given to professors the patronage of whose chairs is vested in the crown. In the English universities the term is especially applied to those professorships founded by Henry VIII.

### Weight of the Earth

The weight of the earth has been estimated at six sextillion 502 quintillion tons, not including the atmosphere, which weighs more than five quadrillion short tons.

### Coyote Is Cunnilingus

The coyote is fast, wary and can more than hold its own when chased by hounds. It knows how to double back on its tracks, throwing the dogs off, and will use every ounce of its strength and fury to prevent a kill.

## Fox Lake Stems Antioch Graders' Winning Streak

The Fox Lake baseball lads brought the Antioch Grado school aggregation's long winning streak to a close Monday on the Fox Lakers' diamond, 5 to 4.

The outcome put the Fox Lakers in the Grado school athletic conference league lead while Antioch drops back into second place. The first half of the 1935-36 baseball season will be concluded for Antioch with a game this afternoon (Thursday) at Durand and the windup here next week Thursday with Carlin school.

A peep in the record books discloses that the Graders have dropped but two of their last 17 games, and by ending the fall half of the current season with wins, they will have a chance to maintain their hold on the conference championship when they meet Fox Lake on the home diamond when the second half of the 7-game schedule is resumed in the spring.

### Card of Thanks

We wish to thank our friends and neighbors for their expressions of sympathy and acts of kindness during our bereavement.

The Dunn Family.

### Heat From Radium

A gram of radium disintegrating produces more than a million times as much heat as that produced by burning a gram of coal.

### Correction

Mr. and Mrs. Orville Cunningham announce the birth of a daughter, born Monday, September 23rd, instead of on September 22nd, as printed in last week's edition of the News.
